PSHS Main Campus BIDDING DOCUMENTS

Site Development: Rehabilitation of the Guardhouse, Track & Field and Improvement of Campus Grounds; and Installation of Main Power Supply Cable for the Residence Halls

ANNEX A1. PERSONNEL REQUIREMENTS

Please submit Curriculum Vitae using the template in **Annex A2** with a photocopy of professional I.D. or accreditations as required below as part of the Technical component of the Bid. The same person can take on multiple roles during the project provided that they meet the qualifications of each role. The underlined personnel must be directly employed by the bidder, and not by the subcontractor.

KEY CONSTRUCTION PERSONNEL REQUIRED

The key professionals and the respective qualifications of the CONSTRUCTION PERSONNEL shall be as follows:

A. Project Engineer/Civil Engineer

The Project Engineer/Civil Engineer shall be a licensed architect or engineer with at least five (5) years of experience in similar and comparable projects and shall preferably be knowledgeable in the application of rapid construction technologies.

B. <u>Electrical Engineer</u>

The Electrical Engineer must be a registered Professional Electrical Engineer with at least five (5) years of experience in the design of lighting, power distribution, and preferably knowledgeable in developments of emergent efficient lighting technologies, utilization of solar energy, and energy management.

C. <u>Materials Engineer</u>

The Materials Engineer must be duly accredited with at least five (5) years of experience in similar and comparable projects and shall preferably be knowledgeable in the application of rapid construction technologies.

D. <u>Safety Officer</u>

The Safety Officer must be an accredited safety practitioner by the Department of Labor and Employment (DOLE) and has undergone the prescribed 40-hour Construction Safety and Health Training (COSH) by the Occupational Safety and Health Center or any accredited training institution.

E. Foreman

The Foreman must have at least five (5) years of experience in similar and comparable projects and shall preferably be knowledgeable in the application of Green Building

technologies. Preferably with experience in rapid building construction, drainage works and landscaping works. Willing to use new technologies.

The key professionals listed are required. The CONSTRUCTION CONTRACTOR may, as needed and at its own expense, add additional professionals and/or support personnel for the optimal performance of all Construction Services, as stipulated in the Bid Documents for the PROJECT.
